88L Sonic Tank Industrial Heated Ultrasonic Parts Washer

Model: K1024 (88 Liters)

Ultrasonic Power: 1200W（5-100% adjustable）

Frequency：28KHz or 40KHz (Optional)

Heating Power：4000W

Internal Tank Size: 550x400x400MM (L*W*H)

Overal Size: 770*620*620MM (L*W*H)

Timer Settings: 1-9999 Seconds or long-time running

Temperature Settings: 0-100℃ adjustable

Voltage: AC 220-240V, 50Hz

Wooden Case Packaging: 87*73*83CM；G.W.: 80KG

Accessories: Stainless steel cleaning basket, lid, valve

Features Description：

◇ This industrial heated ultrasonic parts washer is suitable for 7x24 hours long time continuous running.
◇ High-grade SUS304 stainless steel material for both housing and ultrasonic cleaning tank.
◇ Independent ultrasonic generator with sweep frequency mode ensures a strong cleaning power.

Industrial Sonic Parts Washers Specifications https://www.anonkia.com/ultrasonic-cleaner-specifications

Model	Volume	Sonic Power	Heating Power	Tank Size (MM)	Overal Size(MM)	Frequency
K1018	60L	900W	2000W	500*350*350	720*570*570	28KHz or 40KHz
K1024	**88L**	**1200W**	**4000W**	**550*400*400**	**770*620*620**	
K1030	100L	1500W	4000W	600*450*400	820*670*620	
K1036	150L	1800W	6000W	600*500*500	820*720*720	
K1042	175L	2100W	6000W	700*500*500	920*720*720	
K1048	200L	2400W	6000W	800*500*500	1020*720*720	
K1060	240L	3000W	6000W	800*600*500	1020*820*720	
K1072	300L	3600W	9000W	1000*600*500	1220*820*720	
K1120	500L	6000W	12KW	1200*700*600	1420*920*820	

Remarks:

1. 28KHz and 40KHz are the most common frequencies, more frequency of 20KHz, 25KHz, 32KHz, 60KHz, 68KHz, 80KHz, 100KHz, 120KHz can be customized.
2. More various sizes of ultrasonic cleaning tanks can be customized according to requirements.
